# ORIGAMI HELP CENTER

Introducing the **Origami Help Center** – our new, free online help and release note documentation repository. This tool offers resources that assist you in learning Origami on your own time. Features include:

- A **Getting Started guide** for new users to start familiarizing themselves with Origami's navigation and interface
- Your new **hub for Release Notes** and additional information related to our product releases
- A growing **module-by-module library** to help you navigate and learn each area of the system
- A **What's New page** dedicated to showcasing new and updated content as our help and release note repository grows

How to Access the Help Center:

1. Log in to your Origami Risk account

2. In the upper right hand-corner, you will See a link for Help (highlighted in red below)

3. Click and you're in! Feel free to navigate through our 700+ knowledge articles about the Origami Risk platform.
