

ORIGAMI HELP CENTER

The Origami Help Center is our online help and release note documentation repository, offering resources that assist you in learning Origami on your own time. Features include:

- **Product Release Notes:** With every Origami product release, you can always find the release notes in the Help Center.
- **“Get Started” Guide:** If you’re a new user of Origami, this is a perfect place to start familiarizing yourself with Origami’s navigation and interface.
- **“What’s New” Page:** Origami is always evolving and this page is a dedicated location for you to see any new articles that have been published in the Help Center.

How to Access the Help Center

1. Log in to your Origami Risk account
2. In the upper right hand-corner, you will see a link for **Help** (highlighted in red below)
3. **Click and you’re in!** Feel free to navigate through our 1,000+ articles about Origami.

As the Help Center grows, you may search for a subject that has not yet been documented. We encourage you to visit the Help Center often as we are continually adding more content.

Questions? Reach out to techdoc@origamirisk.com

Looking for Video Resources?

Check out the **Origami Learning Center**, our on-demand, self-service video content library where System Administrators can access interactive e-learning modules on a variety of Origami topics.
